

AIR STERIL

A high-tech odour neutralising, bacteria eliminating device.

KEY FEATURES

Controls harmful bacteria, viruses, mould, and fungi.

Effective on airborne and surface bacteria.

Circulates fresh clean air around the washroom 24/7.

Robust vandal resistant polycarbonate casing.

Reduce the need for harsh chemicals and harmful aerosols.

Maintains sanitised surfaces for unrivalled hygiene.

Low running costs, only using a low-energy 16 Watt bulb.

GERMACIDAL IRRADIATION

The Air Steril is a powerful tool that kills all unwanted bacteria. It does so with dual UV light (Ultraviolet) kills microorganisms (bacteria, viruses and mould) by disrupting their DNA and removing their reproductive capabilities.

ULTIMATE HYGIENE

Whilst fragrances improve the user experience, they do nothing towards hygiene. Air Steril is proven to kill all common harmful washroom bacteria, such as salmonella and e.coli, whether they are airbourne or on a surface.

BUILT TO LAST

Featuring a robust, vandal resistant polycarbonate casing, no moving parts, and requiring low-energy UV bulb replacements, the Air Steril is an investment in hygienic washrooms.

SPECIFICATION

Dimensions: 400 x 125 x 90 mm | Supply: 220-230V 10 watts (13a fused spur) | Weight: 0.9 kg | Operation: Continuous | Material: Polycarbonate | Colours: White, Titanium
