

MICROBURST

A sleek, compact, high-performance fragrance delivery system.

KEY FEATURES

A wide range of 23 fragrances available.

Integrated LCD screen provides battery life and sprays remaining.

Programmable sprays to suit your requirements.

Battery supply, so can be positioned anywhere.

Stylish design fits with all different decor types.

64% less packaging waste than regular aerosols.

75ml capacity gives up to 90 days between refills.

THE MICROBURST

The Microburst Dispenser is an attractive odour control solution that provides cost-effective, programmable air freshener delivery with all the power and performance of standard dispenser units.

SITE FLEXIBLE

Flexible programming provides 12/24-hour and 5, 6, 7 days per week options. This means you only use fragrance when required, saving time and money.

LCD SCREEN

Conveniently located LCD displays remaining battery life and days until next required refill. This combined with our regular servicing regime means your washrooms will always smell clean and fresh.
